Once again, Club Italia had another successful dinner dance. This year's theme was "The Azzuri" celebrating Italy's World Cup win. Over 200 guests were engaged in an elaborate dinner provided by San Marino's fine food and organized service. The evening key speakers were Tony Soave, founder of Club Italia, Mr. Gerhardt (President) from the MSA, Mr. Harris (President) from MYSL, and Tom Frisbi from the MSYSA. The evening included silent and live auctions, Diamond Connection, raffle prizes. The attendees danced to the sound of the Band Eclipse from Windsor, Ontario. Club Italia would like to thank all of those who volunteered who made the evening successful. Club Italia would like to give a great thanks to those companies who place an add in the dinner dance booklet.

GIUSEPPE ARMANI, PICASSO, LUIGI FEDELE WHAT!

Yes, Club Italia's very own Luigi Fedele was featured in January/February 2007 Edition of Detroit Home Magazine. The article illustrates the hard work this creative plaster has been doing since he was 14 years old. Luigi explains how plaster has changed in the past 40 years. The photo in the magazine shows the Great works of plaster Luigi hands make. After seeing the picture in the magazine, I believe Luigi's completed works are a masterpiece. Great job and good luck!

MLS Soccer - Just got Closer

I like to consider myself a soccer snob. I only watch Seria A, Premiership League, and little Euro football from here and there. But I have often called the MLS - Minor League Soccer. Something kind of changed my mind. I could not forget seeing the enthusiasm of the residents of Our World Class city to the East of us, Toronto had for the new MLS franchise, Toronto FC. The stadium was sold out and ticket sales are very strong.

I am currently childless, but for those parents who have kids involved with soccer, a game in Toronto is much cheaper then going to San Siro. The team plays at the new BMO filed right in Toronto.
